

It is my understanding that the FCC is considering expanding LPFM in a way that would harm stations like K-LOVE Radio. I have been a faithful listener and contributor to this translator station for the past 3 years and feel that it serves the public interest on the air. It is wholesome content that my kids can enjoy with me without fear. I hear K-Love throughout my workday. In offices ... Subway Sub Shops, Bookstores, and elsewhere. I feel that it serves the public interest by providing a wholesome, clean alternative to many of the commercial radio stations. Please consider this my personal endorsement to not expand LPFM in a way which harms stations such as K-LOVE.
